All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates, and projections as at the date of this news release. Any statement that involves discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "budget", "scheduled", "forecasts", "estimates", "believes" or "intends" or variations of such words and phrases or stating that certain actions, events or results "may" or "could", "would", "might" or "will" be taken to occur or be achieved) are not statements of historical fact and may be forward-looking statements. In this news release, forward-looking statements include, among other things, statements relating to the Company's future performance, potential future financing, the customer service experience, and TOPS loyalty program.

These forward-looking statements are based on reasonable assumptions and estimates of management of the Company at the time such statements were made. Actual future results may differ materially as forward-looking statements involve known and unknown risks, uncertainties, and other factors which may cause the actual results, performance, or achievements of the Company to materially differ from any future results, performance, or

achievements expressed or implied by such forward-looking statements. Such factors, among other things, include: implications of the COVID-19 pandemic on the Company's operations; fluctuations in general macroeconomic conditions; fluctuations in securities markets; expectations regarding the size of the cannabis markets where the Company operates; changing consumer habits; the ability of the Company to successfully achieve its business objectives; plans for expansion and acquisitions; political and social uncertainties; inability to obtain adequate insurance to cover risks and hazards; employee relations; the presence of laws and regulations that may impose restrictions on cultivation, production, distribution, and sale of cannabis and cannabis-related products in the markets where the Company operates; and the risk factors set out in the Company's management's discussion and analysis for the period ended September 30, 2022 and the Company's listing statement dated May 30, 2019, which are available under the Company's profile on www.sedar.com. The Company, through several of its subsidiaries, is directly involved in the manufacture, possession, use, sale, and distribution of cannabis in the recreational and medicinal cannabis marketplace in the United States. Local state laws where the Company operates permit such activities however, investors should note that there are significant legal restrictions and regulations that govern the cannabis industry in the United States. Cannabis remains a Schedule I drug under the United States Controlled Substances Act, making it illegal under federal law in the United States to, among other things, cultivate, distribute or possess cannabis in the United States. Financial transactions involving proceeds generated by, or intended to promote, cannabis-related business activities in the United States may form the basis for prosecution under applicable United States federal money laundering legislation.

While the approach to enforcement of such laws by the federal government in the United States has trended toward non-enforcement against individuals and businesses that comply with recreational and medicinal cannabis programs in states where such programs are legal, strict compliance with state laws with respect to cannabis will neither absolve the Company of liability under United States federal law, nor will it provide a defense to any federal proceeding which may be brought against the Company. The enforcement of federal laws in the United States is a significant risk to the business of the Company and any proceedings brought against the Company thereunder may adversely affect the Company's operations and financial performance.
